Unanimous Approval of May Board Minutes and Agenda.

Executive Director’s Report:

Shop 24:
Steve explained that Shop 24 is doing great and sales are up!

Bakery Project:
Steve explained that the bakery Project is moving along but slower than expected. Should be opening some time next semester. Isabelle asked if there would be a bakery café to go with the bakery. Steve stated yes, it will be where the Sweet Shop was.

Ryan Presented:
Ryan introduced the new dietitian, Marianne Liakos, and explained that she will begin tabling at different locations soon so that students know who she is. Scott Myers replaced Jen Lischer the director of operation. There is a new Starbucks manager, Vincent Reda. There is also a new catering manager, Nick Denovellis he is also the catering chef playing a dual role. Ryan explained that he has started a new Secret Shopper program. He has hired one student so far and needs more students that want to be a secret shopper. They are very focused on vegan and Gluten free options this semester. There are new vegan options at the SUB and Element 93 these replaced Midge and Me products. Rick is the new vegan chef at Hasbrouck. All chefs completed a training done with a vegan chef from the humane society. Npressed is new this semester offering healthy fresh made juices, smoothies and features Brooklyn Coffee. Hasbrouck has a new egg station, smoothie station and gluten free waffle station. Isabelle
asked how V93 started. Ryan explained that Steve and himself decided over the summer to change Midge and Me due to large financial loss. Ryan analyzed the previous vegan offerings and created their own V93 line. Now, chef Maria at Element 93 produces all the vegan options herself on a daily basis. Brian asked if the price and quality of the new Vegan line, V93, is comparable to Midge and Me. Ryan explained that prices are a little lower than Midge and Me products, vegan is more expensive to produce and Element 93 uses local grass-fed beef and local chicken. Isabelle asked if we could improve packaging now that we have control. Ryan explained that they are working on improving packaging. Corinna stated that UAlbany is also run by Sodexo and their food service is terrible. Our campus truly does a great job with what we provide students. Ryan stated that 820 surveys have been received and they are at 80% satisfaction overall, the surveys end Saturday. Ryan said he is here to help and welcomes all feedback.

Meal Plan Changes:
Steve stated that the biggest complaint we are hearing is the loss in the All Flex dining dollars.

Melinda presented the Meal Plan Analysis.

Melinda explained $694,000 of declining balance were spent down at the end of last semester for bulk items. She also explained 80% of all flex users were using their dining dollars at Hasbrouck last semester. Students were losing money using dining dollars at Hasbrouck instead of swipes. The average door rate is about 34% more expensive than the swipe rates. Students also said they wanted more dining dollars on the Carte Blanche plan. Melinda stated that our meal plan prices are still one of the lowest in the SUNY system. Michele asked what the difference for Sodexo is between students choosing one meal plan over the other. Steve answered that administration finds it is necessary to have the Carte Blanche meal plan for all incoming first year students so that is an easy transition. The other reasons are to also control traffic to all food locations on campus. Melinda explained that 64% of students are using at least 5 swipes at Hasbrouck and 90% of students on the 3-meal plan are using their swipes at Hasbrouck. Kaina asked how meal plan prices are decided. Melinda explained it is based on financial analysis, Sodexo contract guidelines, and comparison of other SUNY meal plans. Like other SUNY schools we usually raise meal plan prices an average of 3% each year. Steve explained that having the same meal plan price for each meal plan was the best decision. Having all different prices for meal plans caused issues for student accounts. He also stated that it is more cost effective to produce the Carte Blanche meal plan. Bryant asked what the swipe rate is. He then explained his figures when using $12 as a swipe rate it only comes to about $2,000. Steve explained that we figure the door rate to be around $14.50 a swipe. Bryant stated that the most expensive meal in Hasbrouck is only $11 and he used $12 for his analysis and still only came up with about $2,000. Ryan explained that Hasbrouck supports the other areas, it subsidizes retail locations. Brian asked why Hasbrouck has to subsidize the other locations, it doesn't seem right. Steve explained that it is always more expensive to have more flexibility, if you want the best value you should be on the Carte Blanche. Ryan explained that this is how all college campuses work. Bryant asked why we had the All Flex plan last year and not this year. Steve explained 1/3 of declining balance went to waste, we also lost money on
our bottom line which takes away from future renovations. **Brian** asked if our prices for retail locations were higher than other places. **Ryan** answered that our prices are comparable to convenient store prices. **Isabelle** asked if having the bakery will save us money and what is the plan for the money saved. **Steve** explained that it is not definite the bakery will save us money. The budget committee would decide what to do with the money saved. **Kaina** asked if that would affect the meal plans in any way. **Steve** explained that whatever we see happen this year will decide what meal plans we have next year.

**Hasbrouck:**

**Steve** stated that there is a big problem with food waste in Hasbrouck and it needs to be addressed. **Ryan** stated that 1 ton of food is wasted a day. Students need to be educated about food waste. **Steve** explained that CAS sponsored the viewing of the film “Wasted” here on campus. This documentary shows all the food waste happening in America. He believes it would be a good idea to create a Hasbrouck committee. This committee would come up with solutions for the food waste as well as improvements to Hasbrouck. We need to create behavioral changes. Short term plans, a kosher station, an allergen free station, trends we can do to improve Hasbrouck. Long term plans, are adding an elevator and changing equipment. This committee would meet with Steve and Ryan once a month. Volunteers are **Kaina, Andrea, Isabelle, Bryant, Brian** and **Corinna.**

**Isabelle** asked if we could have a conversation about composting next meeting. **Steve** said he would add it to the agenda.

**Meeting Adjourned at 12:00pm.**
